

# COMPTES RENDUS MATHÉMATIQUE

Tome 354 (2016) – N° 5 – mai

---

Fenêtre, 1976, détail, Éric Hallberg ©, né en 1933.  
Fenêtre, 1976, detail, Éric Hallberg ©, born in 1933.

---

## **Théorie des nombres/Number Theory**

- On the lower bound of the discrepancy of Halton's sequence I  
**Mordechay B. Levin** ..... 445

## **Algèbre homologique/Homological Algebra**

- Algebraic  $K$ -theory with coefficients of cyclic quotient singularities  
**Gonçalo Tabuada** ..... 449
- On  $\mathbb{A}^1$ -fundamental groups of isotropic reductive groups  
**Konrad Voelkel, Matthias Wendt** ..... 453

## **Analyse mathématique/Mathematical Analysis**

- Splittings of extensions and homological bidimension of the algebra of bounded operators on a Banach space  
**Niels Jakob Laustsen, Richard Skillicorn** ..... 459

## **Analyse complexe/Complex Analysis**

- Growth of proper holomorphic maps and tropical power series  
**Evgeny Abakumov, Evgueni Doubtsov** ..... 465

## **Équations différentielles/Ordinary Differential Equations**

- On the number of fibrations transverse to a rational curve in complex surfaces  
**Maycol Falla Luza, Frank Loray** ..... 470
- A higher-dimensional Poincaré–Birkhoff theorem without monotone twist  
**Alessandro Fonda, Antonio J. Ureña** ..... 475

## **Équations aux dérivées partielles/Partial Differential Equations**

- Solenoidal extensions of vector fields in two-dimensional unbounded domains  
**Michel Chipot** ..... 481
- Periodic solitons for the elliptic–elliptic focussing Davey–Stewartson equations  
**Mark D. Groves, Shu-Ming Sun, Erik Wahlén** ..... 486
- When “blow-up” does not imply “concentration”: A detour from Brézis–Merle’s result  
**Chang-Shou Lin, Gabriella Tarantello** ..... 493

Continued on the next page

Contents (continued)

• On non-linear Stokes problems with viscosity depending on the distance to the wall <b>Jacques Rappaz, Jonathan Rochat</b> .....	499
• Leray's problem for the Navier–Stokes equations revisited <b>Joyce C. Rigelo, Lineia Schütz, Janaína P. Zingano, Paulo R. Zingano</b> .....	503
<b>Analyse harmonique/Harmonic Analysis</b>	
• $L^p$ harmonic analysis for differential-reflection operators <b>Salem Ben Saïd, Asma Boussem, Mohamed Sifi</b> .....	510
<b>Analyse fonctionnelle/Functional Analysis</b>	
• (voir tome 354, série I, 2016, p. 459)	
<b>Géométrie algébrique/Algebraic Geometry</b>	
• (voir tome 354, série I, 2016, p. 449)	
• (voir tome 354, série I, 2016, p. 453)	
• Genus one enumerative invariants in del-Pezzo surfaces with a fixed complex structure <b>Indranil Biswas, Ritwik Mukherjee, Varun Thakre</b> .....	517
• Newton–Okounkov bodies and complexity functions <b>Mihai Fulger, David Schmitz</b> .....	522
<b>Géométrie analytique/Analytic Geometry</b>	
• (voir tome 354, série I, 2016, p. 470)	
• $G$ -invariant holomorphic Morse inequalities <b>Martin Puchol</b> .....	526
<b>Géométrie différentielle/Differential Geometry</b>	
• (voir tome 354, série I, 2016, p. 526)	
<b>Systèmes dynamiques/Dynamical Systems</b>	
• (voir tome 354, série I, 2016, p. 475)	
• (voir tome 354, série I, 2016, p. 486)	
<b>Probabilités/Probability Theory</b>	
• First- and second-order expansions in the central limit theorem for a branching random walk <b>Zhiqiang Gao, Quansheng Liu</b> .....	532
<b>Statistique/Statistics</b>	
• Modèle non paramétrique parcimonieux pour la détection des points d'impact d'une variable fonctionnelle <b>Germán Aneiros, Philippe Vieu</b> .....	538
<b>Analyse numérique/Numerical Analysis</b>	
• (voir tome 354, série I, 2016, p. 499)	
<b>Problèmes mathématiques de la mécanique/Mathematical Problems in Mechanics</b>	
• From the free surface flow of a viscoelastic fluid towards the elastic deformation of a solid <b>Marco Picasso</b> .....	543
