A R T I C L E   I N F O

This corrigendum corrects three unfortunate typographical errors that have been forgotten in the above-mentioned article.

1) On page 231, Theorem 2.1, formula (1): $|Z_s|$ should be replaced with $|Z_s|^2$.
2) In the whole of the article, ξ^- should be replaced with $-\xi^-$. More precisely,
   - on page 230, line 8: expression $eq(\xi^-, -(a + b|y| + c|z| + f(|y|)|z|^2))$ should be replaced with $eq(-\xi^-, -(a + b|y| + c|z| + f(|y|)|z|^2))$;

   and

   - on page 232, line 7: expression BSDE $eq(\xi^-, -g)$ should be replaced with BSDE $eq(-\xi^-, -g)$.

We thank our readers for their understanding.
